

Central Technical Library at the University of Ljubljana

Miro Pušnik, miro.pusnik@ctk.uni-lj.si

Central Technical Library at the University of Ljubljana

Our Vision

An Innovative Learning Community

The library as a knowledge centre.

A community-driven library and student participation in formal governance.

Extended opening hours.

The library as a learning laboratory. Adequate library holdings.

Approximately 2500 m². Cc 200 reading seats. Approx. 150.000 items of printed material. Approx. 5000 active members. Approx. 200.000 visits. Opening hours 8.00 to 24.00, Saturdays 9.00 to 17.00, also open on Saturdays and Sundays until 24.00 during the academic year.

Open Integrated Research Infrastructure

Consortia of international scientific literature.

Active participation in the national system for the evaluation of scientific research work SICRIS.

Provision of infrastructure for open science:

- Managing Repository
- Information Centre to Support Open Science Practices
- Managing Slovenian Citizen Science Network
- Implementation of open science practices in research organisations - the SPOZNAJ project

Digital repository of Slovenian research organizations

New documents in DiRROS:

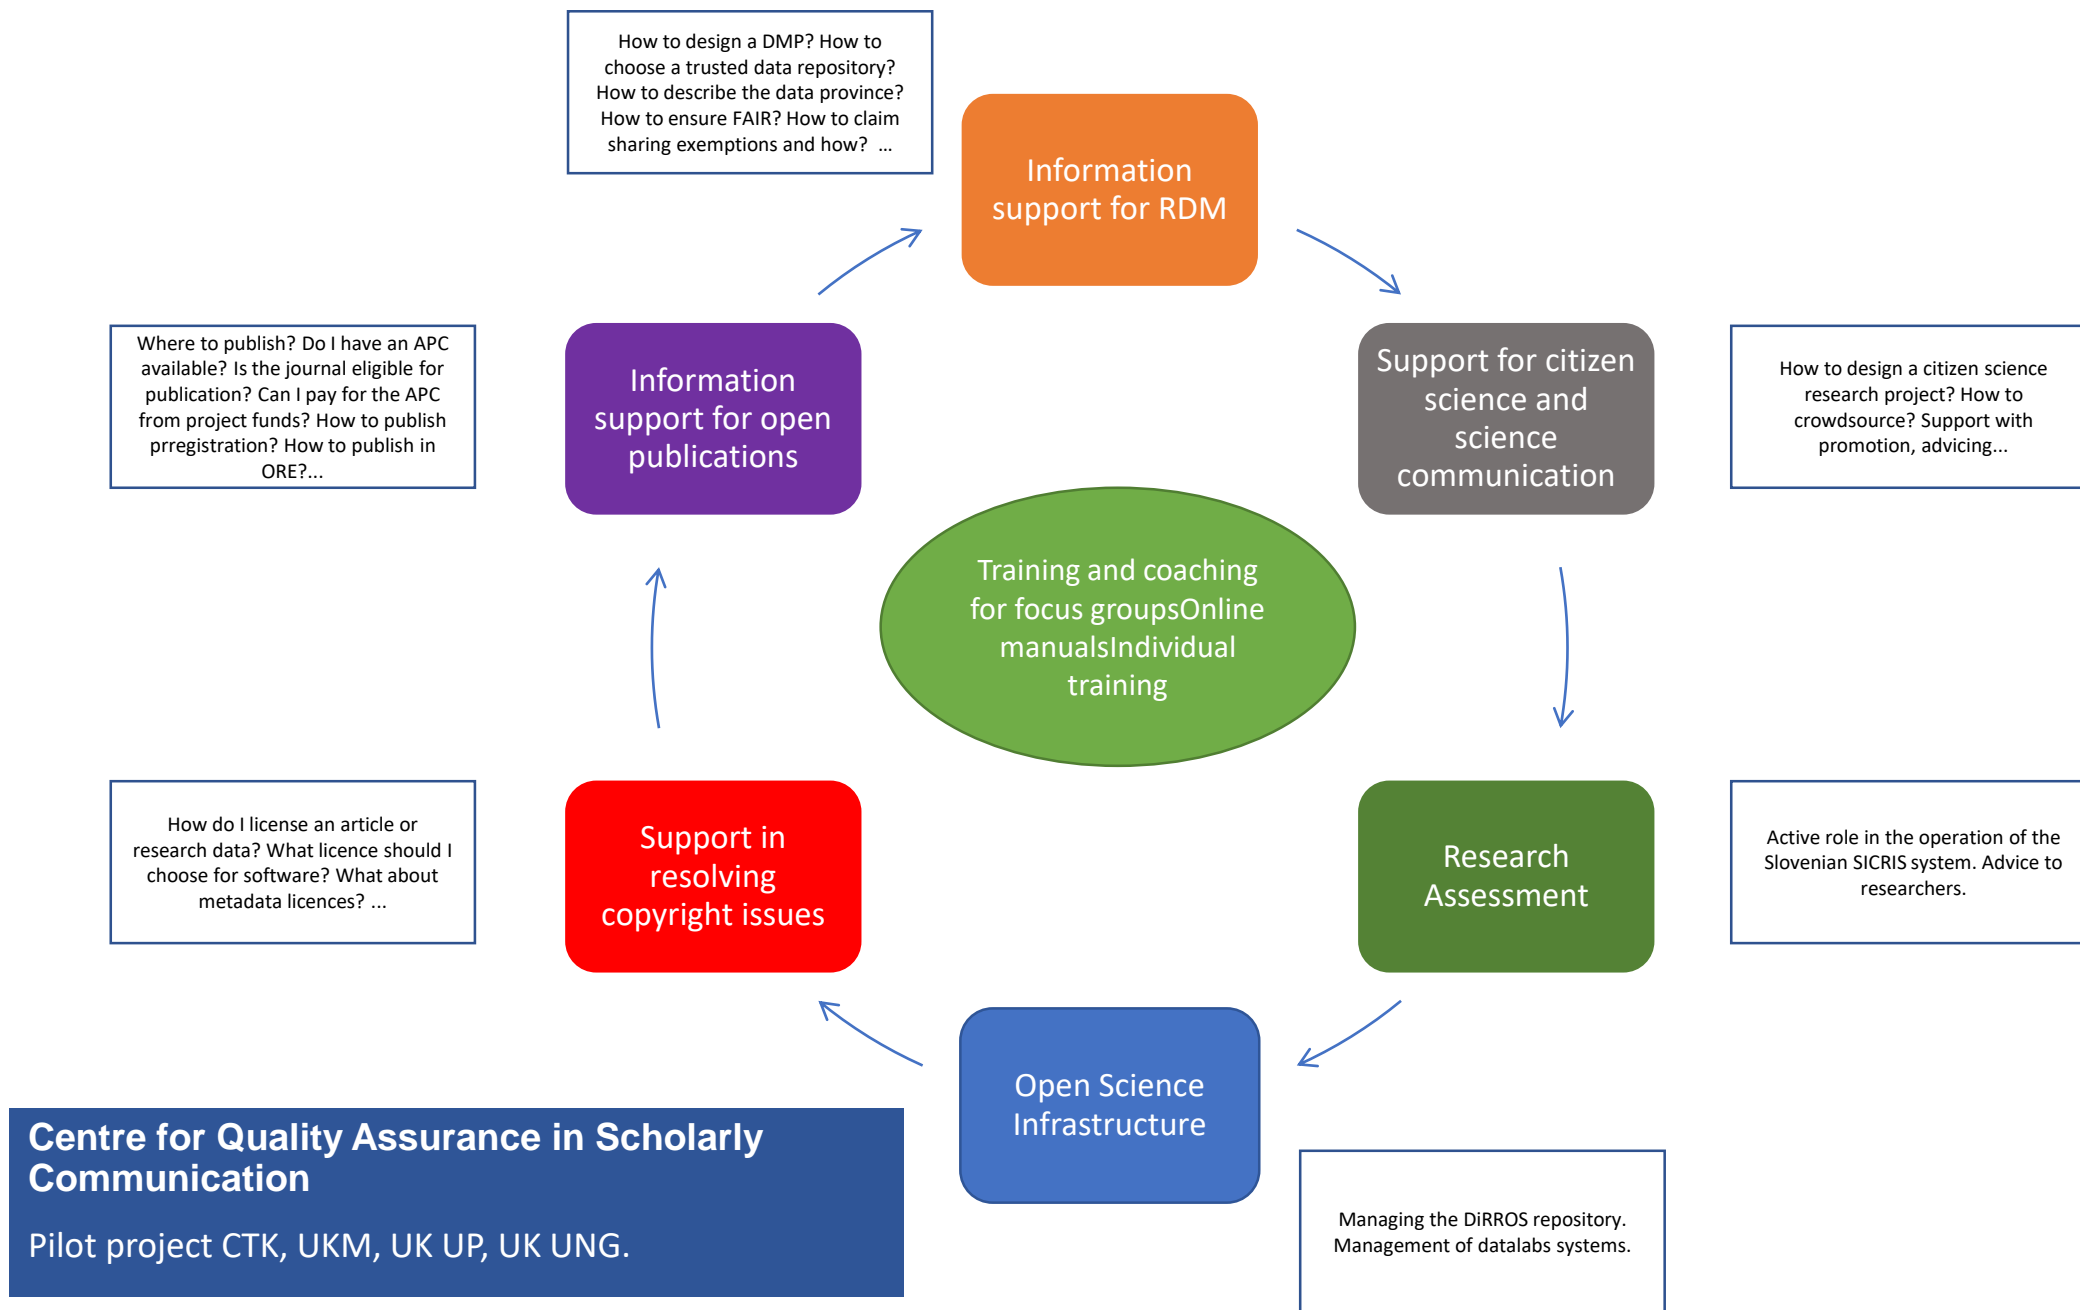

24.09.2024	INV	article	Factors influencing the attitudes of the majority population of Slovenia towards immigration
24.09.2024	INV	article	Attitudes of the majority population towards the civic and political participation of immigrants in Slovenia
20.09.2024	SciVie	monograph	Poročilo o preskusu št.: LVG 2024-130
20.09.2024	SciVie	monograph	Poročilo o preskusu št.: LVG 2024-124
20.09.2024	ZGDS	article	Uspešen posvet na Agri
20.09.2024	ZGDS	article	Tudi letošnji požar na Krasu pokazal pomanjkljivo protipožarno varnost
20.09.2024	ZGDS	article	Dve leti po požaru na goriškem Krasu
20.09.2024	ZGDS	article	Makroskopske in mikroskopske značilnosti lesa
20.09.2024	ZGDS	article	Gozdni požar na Potoški gori in sanacija v požaru poškodovanih gozdov
20.09.2024	ZGDS	article	Sanacija gozdov po zaporednih vetrolomih v letu 2023 na Polovniku v gozdnogospodarski enoti Bovec

The table below shows the number of new and total number of documents per DiRROS member organization. Only full text documents (with files) are included, irrespective of the language. New works are all works, published in last 30 days. Table cells with the icon  start a search of a certain type of documents for a single organisation, whereas cells with the icon  enable RSS subscription.

Transformative agreements (Elsevier, Wiley, Springer Nature, IEEE, ACS, RCS, IOP).

More than 2 million downloads of scientific articles. Around 1000 vouchers for open publications.

Centre for Quality Assurance in Scholarly Communication. Citizen Science Network and Citizen Science Observatory.

DiRROS Data

DiRROS Data is an online service of the DiRROS Repository that provides researchers with information regarding research data management (RDM), both when publishing in the DiRROS Repository and when publishing and archiving scientific works in other repositories or on data sharing platforms. All questions can be answered by our information specialists, who can also offer help and support in the various steps of research data management.
